

LABORATORY HAND BOOK ON BASIC ECOLOGY

(SOIL, WATER, PLANKTON AND FEEDING ECOLOGY WITH SPECIAL
MENTION TO PERIPHYTON)

SURJYA KUMAR SAIKIA
DEBANGSHU NARAYAN DAS

**Laboratory Hand Book
on Basic Ecology
(Soil, Water, Plankton and
Feeding Ecology with
Special Mention to
Periphyton)**

**SURJYA KUMAR SAIKIA

To

my parents.....

*whose every memory is a living lesson
of struggle in life.*

-Surjya Kumar Saikia

Preface

Laboratory work requires understanding and thorough knowledge of principles and working mechanism of experiments. Analysis of ecological parameters, especially soil and water involves skilled technical hand. The present book is a synthesized work to cover all these aspects in one place. The book is divided into four sections - Section I, II, III and IV. Each section is further subdivided into several Chapters for convenience. The part chemical analysis of soil and water include all principles and chemical reaction related to experiments concerned. The book has mathematical details for plankton and periphyton studies. The part diversity and feeding ecology studies denote special feature to the book. The experiments mentioned in this book are simple and fit for undergraduate and post graduate classes. In addition, it has been designed to help researchers working in aquatic ecological laboratories.

The authors would be grateful for any comments, suggestions and criticisms from the users of this handbook.

*Dr. Surjya Kumar Saikia
Professor Debangshu Narayan Das*

Acknowledgement

I would like to express my gratitude to the many people who provided support, offered comments, and reviewed the text, and assisted in the editing, proofreading and designing of this book.

Thanks to Visva Bharati University, Santiniketan, West Bengal, India - without your financial support this book would never find its way to the publisher and to so many people through Web.

I would like to thank my wife who supported and encouraged me in spite of all the time it took me away from them.

I would like to thank my parents for their unending love and support.

Apart from above, I would like to specially mention Sudarshana Nandi and Sandip Majumder, my PhD research scholars, who assisted me one way or other, while correcting and editing the book during its preparatory stages.

Last and not least, I beg forgiveness of all those who have been with me over the course of my research and whose names I have failed to mention.

Dr. Surjya Kumar Saikia

Contents

Preface	V
Acknowledgement	VI
Section I Water Analysis.....	1
Chapter 1 Chemical Analysis of Water	3
1.1 pH	3
1.2 Electrical Conductivity	5
1.3 Total Alkalinity	6
1.4 Total Hardness.....	8
1.5 Calcium Hardness.....	10
1.6 Magnesium Hardness	12
1.7 Free Carbon Dioxide (Titrimetric Method with Na_2CO_3)	12
1.8 Dissolved Oxygen (Winkler's Method)	13
1.9 Dissolved Phosphorus (Soluble Orthophosphate)	16
1.10 Total Phosphate	18
1.11 Dissolved Nitrate (Brucine Sulphonic Acid Method)	19
1.12 Sulphate Estimation.....	20
Chapter 2 Physical Analysis of Water	23
2.1 Potability of Water	23
2.2 Turbidity	25
2.3 Temperature.....	26
2.4 Dissolved Solids	27
Section II Soil Analysis.....	31
Chapter 3 Chemical Analysis of Soil.....	33
3.1 Available Nitrogen (Alkali KMnO_4 Method).....	33

3.2 Organic Carbon and Organic Matter (Walky and Black, 1934).....	36
3.2.1 Titrimetric Method.....	36
3.2.2 Colorimetric Method.....	39
3.3 Available Phosphorous (Olsens et al., 1954).....	40
3.4 Available Potassium.....	46
3.5 Soil pH.....	50
3.6 Electrical Conductivity of Soil.....	51
Chapter 4 Physical Analysis of Soil.....	53
4.1 Collection and Preservation of Soil.....	53
4.2 Moisture Content of Soil (Gravimetric Method).....	54
4.3 Bulk Density of Soil (Core Tube Method).....	56
4.4 Particle or Real Density of Soil.....	58
4.5 Pore Space or Porosity of Soil.....	59
Section III Plankton and Periphyton Studies.....	61
Chapter 5 Collection, Preservation and Quantification (Plankton).....	63
5.1 What are Plankton.....	63
5.2 Foreworks of Plankton Sampling.....	63
5.3 Preservation of Plankton.....	64
5.4 Plankton Sampling.....	65
5.4.1 Plankton Samplers.....	65
5.4.2 Plankton Sampling Methods from Surface Water.....	67
5.5 Quantitative Analysis of Plankton.....	69
5.5.1 The Sedgwick Rafter (S-R) Cell Counting.....	70
5.5.2 Lacky's Drop Count Method.....	71
Chapter 6 Collection, Preservation and Quantification (Periphyton).....	73
6.1 What is Periphyton.....	73
6.2 Periphyton Collection and Quantification.....	73
6.2.1 Periphyton Collection from Natural Substrate.....	73
6.2.2 Periphyton Collection from Artificial Substrate.....	74

6.3 Quantitative Analysis of Periphyton.....	75
Chapter 7 Plankton and Periphyton Productivity.....	77
7.1 What is Productivity	77
7.2 Measurement of Productivity	78
7.2.1 Dark and Light Bottle Method	78
7.2.2 Chlorophyll – a.....	79
7.2.3 Biomass (Dry Weight and Ash Free Dry Weight)	81
Section IV Diversity and Feeding Ecological Studies.....	83
Chapter 8 Diversity Studies.....	85
8.1 What is Diversity	85
8.2 Indices for Diversity Measures.....	85
8.2.1 Species Richness(s).....	86
8.2.2 Relative Comparison Index (Saikia and Das 2012)	86
8.2.3 Shannon-Weaver diversity (Shannon 1948, Shannon-Weaver 1949)	88
8.2.4 Simpson’s Diversity Index (D) (1964).....	90
8.2.5 Margalef’s Diversity Index, 1968	92
8.2.6 McIntosh Diversity Index	92
8.3 Indices for Evenness Studies	92
8.3.1 Shannon-Weaver Evenness Measure (J) (Pielou, 1966)	92
8.3.2 Simpsons’ Evenness Measure (E).....	93
8.4 Dominance Index.....	94
8.4.1 Concentration of Dominance (C).....	94
8.4.2 Berger-Perker Index (d) (1970).....	94
8.5 Variety Index (V)	94
8.6 Similarity and Dissimilarity Indices	95
8.6.1 Similarity Index.....	95
8.6.2 Index of Dissimilarity (DI).....	95
Chapter 9 Feeding Ecological Studies	97
9.1 What is Feeding Ecology.....	97

9.2 Simple Indices for Gut Analysis.....	97
9.2.1 Fullness and Fullness of Gut.....	97
9.2.2 Stomach Content Index.....	98
9.2.3 Stomach Index.....	99
9.2.4 Percent Composition of Food Items in the Gut.....	99
9.3 Dietary Breadth	99
9.3.1 Levin’s Diet Breadth.....	99
9.3.2 Hulbert’s Diet Breadth.....	101
9.3.3 Smith’s Diet Breadth.....	102
9.3.4 Saikia’s Diet Breadth or DB (χ^2) (Saikia, 2012).....	103
9.3.5 Czekanowski’s Proportion of Similarity Index.....	105
9.4 Dietary Overlap	106
9.4.1 Schoener’s (α) Index.....	107
9.4.2 Clumping of Gut and Possible Diet Overlap.....	108
9.5 Feeding Strategy Study.....	110
References	113
Appendices	116
Index	118
